BIG FIRE IN TOLEDO.

Half Million Dollars Loss on Bicycles.

STARTED BY ENAMELING FLUID.

Location of the Fire Three Miles From the City and the Department, to Their Chagrin, Found Nothing But Hydrants From Which to Take Water—Other Blazes.

TOLEDO, Nov. 29.—The extensive bicycle factory of the Lozier Manufacturing company, said to be the second largest of its kind in the world, located on Central avenue in this city, was completely destroyed by fire between 6:30 and 7 o'clock last evening. The last of the 500 employees, who are now thrown out of work, with no prospect of early resumption, had left the mammoth structure but a short time before the alarm for the fire was sent in. The factory is nearly three miles from the center of the city, so that when the first of the fire apparatus arrived on the scene, the flames had control of the building.

All but three of the 11 fire companies responded to the alarm only to find to their chagrin that there were but hydrants from which to take water. The two streams were wholly inadequate to cope with the blaze and half an hour after the alarm was given the factory was almost a complete ruin. The fire started in the "assembling" room of the factory and was caused by the explosion of a large tank of enameling fluid. The loss is about \$600,000, with insurance of \$350,000.

The destruction of the factory comes at the time of its busiest season. The company had, it is said, 25,000 wheels under way for next year's trade. The general offices of the concern are in Cleveland, consequently it can not be learned here what the prospects are for the restoration of the plant.

The insurance is divided among all the agencies represented here and the individual amounts can not be learned.

Fire in a Mine.

SPRING VALLEY, Ills., Nov. 29.—Fire Tuesday night destroyed the top works and casing of mine No. 1 of the Spring Valley Coal company, and the caving in around the mouth has so choked up the shaft, that the 1,000 miners will be idle for some time pending repairs. Five hundred men were in the mine and for a time there was great excitement, but were all gotten out safely through the escape shaft. Loss, \$80,000; insurance, \$60,000.

Town Wiped Out.

BIRMINGHAM, Ala., Nov. 29.—The town of Oakman, Walker county, was almost wiped out by fire yesterday. Mastodon's drugstore, Davis & Company, dry goods; the postoffice, Appling & Ennis' cotton warehouse and a number of residences were destroyed. Loss, \$25,000; half insured.

THANKSGIVING AT WASHINGTON.

How the President, Family and Cabinet Spent the Day.

WASHINGTON, Nov. 29.—The president and Mrs. Cleveland and the children spent Thanksgiving day quietly in the seclusion of their country home at Woodley. There were no guests, as the president was in no mood for entertaining.

Secretary and Mrs. Gresham dined quietly at the Arlington.

Secretary and Mrs. Carlisle had quite a distinguished party at dinner at their residence, including Postmaster General and Mrs. Bissell, Attorney General and Mrs. Olney and Private Secretary and Mrs. Thurber.

Secretary and Miss Herbert, who have been on a visit to Montgomery and Mobile, Ala., reached here in ample time to eat their Thanksgiving dinner at their home.

Secretary and Mrs. Lamont are in New York city. Mrs. Lamont spent Thanksgiving day with friends in Elmira, N. Y., and the secretary was on the train between New York and Washington most of the day.

Secretary and Mrs. Smith took Thanksgiving dinner at home and had as guests a number of Georgia friends, including a large number of children.

IRON AND STEEL.

Belief That Next Year Will Check the Policy of Profitless Operation.

CLEVELAND, Nov. 29.—The Iron Trade Review this week says: One element of uncertainty in the figuring for '95 in iron and steel is eliminated by the continuance of the steel rail agreement. At \$22 there promises to be a fair volume of buying by railroads able to float bonds; inquiries from some of them are already in. The action of the steel rail makers will give support to other parts of the market, reinforcing manufacturers in the belief that '95 will give a check to the policy of profitless operation that has prevailed so long. The silence of the coke operators in the Connellsville region about the price of their product after Jan. 1 is getting more oppressive.

The general desire to know about the probable status of Bessemer pig early in the year is evidenced in the number of consumers and middlemen who are sounding the market. While there are rumors of transactions, it turns out that there is little buying in the Pittsburgh, Valley and Wheeling districts.

Bibliographer Dead.

CITY OF MEXICO, Nov. 29.—Joaquin Garcia Lozaibarce, the noted Mexican bibliographer, is dead.

LIFE PRISONERS PARDONED.

After Serving 18 Years For Murder the Governor Thinks They Are Innocent.

AUSTIN, Nov. 29.—Governor Hogg has pardoned B. A. Krebs and James Preston, serving life sentences in the penitentiary. They were first condemned to be hanged, but their sentence was commuted to life imprisonment and they have been in prison 18 years. The governor in his report of the case says it is the strangest, most novel and peculiar he ever heard of or considered. The men were convicted of the murder of a man named England, his wife, son and little daughter in Montague county, Aug. 26, 1876.

Krebs, so the evidence shows, was arrested for the crime and was carried before Mrs. England, who lived two days after being shot, and she recognized him as one of the men who had committed the deed. Her daughter, too, before dying, said Krebs did the shooting. It was this evidence, the governor says, that led to the conviction of the men. A son of the Englands, who saw the murderers when they first rode up and escaped, testified that they were Bill Taylor, an escaped convict, and one John Mnsiek, a neighbor of the Englands, who had a grudge against them.

The governor, after careful consideration of all the facts, says it is his belief that Krebs and Preston are innocent and that the real criminals are John Mnsiek and Taylor, who left the country a short time after the Englands were murdered and their whereabouts are unknown.

Preston and Krebs, the pardoned men, are over 70 years old now and are in feeble health.

An effort will now be made to bring Mnsiek and Bill Taylor to justice.

CHINA SUES FOR PEACE.

Her Proposal Will Be Submitted Through United States Ministers.

WASHINGTON, Nov. 29.—China has succumbed to the inevitable and has sued for peace, and her proposal will be presented to Japan through the United States ministers at Pekin and Tokio, thus promising termination of the war as the result in part, at least, of the exercise of the good offices of the United States. It is not possible at this time to learn the terms of China's proposition as handed to Minister Denby, but it is probable that it provides for but two concessions—a money indemnity and a relinquishment of suzerainty over Corea.

It is improbable that the first tender will be acceptable to Japan, as such overtures rarely are, but this proposition will open the way to a counter offer of terms by Japan through Minister Dun, and the negotiations, if successful and if they follow the usual course, will lead first to a truce under proper guarantee, or a preliminary agreement to cease hostilities and finally to the signature of a definite treaty of peace.

Just how this proposition was brought about is not yet known. It is probable, however, that as the matter is in the hands of the American ministers in China and Japan, the visit of Mr. Detring, commissioner of maritime customs at Tien-Tsin, Japan, can not be directly connected with the peace negotiations as has been supposed.

THE INDIAN QUESTION.

Commissioner Browning Defends Their Rights in Utah.

WASHINGTON, Nov. 29.—Secretary Smith has received the telegram from Governor Wirt of Utah mentioned in dispatches of Tuesday evening concerning the southern Ute Indians fighting settlers in San Juan county. The secretary referred the telegram to the war department with the suggestion that General McCook be notified of the alarm. Secretary Smith does not request troops as asked for by the governor. It is learned at the Indian office that about three years ago there was an agreement with the Indians which was never rectified by congress and it was a provision that the Utes could visit the San Juan country every year. They have been doing so and have now been two months in that country. Commissioner Browning says that the lands are public and the Indians have as much right there as white people.

Where the Money Went.

INDIANAPOLIS, Nov. 29.—D. W. Howe, attorney for appellants in the Iron Mail case before the supreme court, yesterday filed a dismissal of the cause. Attorney Howe says among other things that when the receiver was appointed the order was undoubtedly solvent and there was no ground whatever for inacting the receiver permanent; that in esposing Charbydis they have been devoured by Scylla, and in the two years that have elapsed a much larger part of the funds has been dissipated in attorneys' fees and expenses of receivership in this and other states than was ever spent by their officers.

Toons Destroyed by Fire.

TOLEDO, Nov. 28.—Metamora, a village in the northeast corner of Fulton county, was almost completely destroyed by fire Tuesday night. It broke out in Tredway's dry goods store, and, fanned by the strong gale, burned the entire business section, embracing seven stores, the Methodist church and several dwellings and barns.

To Be Embalmed.

LONDON, Nov. 29.—A dispatch to The Standard from Berlin says that the body of Princess Bismarck will be embalmed, but at Prince Bismarck's express desire there will be no autopsy. A burial place will be prepared in the park at Varzin, where, it is stated, a family mausoleum will be erected. Prince Bismarck has decided that only relatives, the family servants and school children shall attend the funeral.

SUGAR WORKS CLOSE.

Refineries in the Principal Cities Shut Down.

50,000 MEN ARE AFFECTED.

President Havemeyer Explains by Saying the Last Congress Is Responsible for the Present Situation—Also Says the Fear of Free Sugar and the Recent Election Assisted in the Result.

NEW YORK, Nov. 29.—Orders were issued Wednesday from the headquarters of the American sugar refinery in Wall street to shut down completely all the refineries of the company in Boston, New York and Philadelphia. Fifty thousand operatives will be affected by the closing of the sugar works.

President H. O. Havemeyer of the American Sugar Refining company said Wednesday morning: "The sugar business has been bad for some months past. We have been hoping against hope all along and tried to weather through the period of depression, trusting that business might improve and that we would soon be able to run our works to their fullest capacity, but everything was against us.

"The reaction that followed the passage of the tariff bill brought about a dull season, and the war among the wholesale grocers in several sections of the country still further tended to demoralize trade. When to this was added the excitement of an election canvass and the general report that congress would pass a free sugar bill, making all sugars free, you can readily see that there was enough cause to compel us to shut down completely."

"But we ran our works up to the present time with a reduced force and has sued for peace, and her proposal will be presented to Japan through the United States ministers at Pekin and Tokio, thus promising termination of the war as the result in part, at least, of the exercise of the good offices of the United States. It is not possible at this time to learn the terms of China's proposition as handed to Minister Denby, but it is probable that it provides for but two concessions—a money indemnity and a relinquishment of suzerainty over Corea.

It is improbable that the first tender will be acceptable to Japan, as such overtures rarely are, but this proposition will open the way to a counter offer of terms by Japan through Minister Dun, and the negotiations, if successful and if they follow the usual course, will lead first to a truce under proper guarantee, or a preliminary agreement to cease hostilities and finally to the signature of a definite treaty of peace.

Just how this proposition was brought about is not yet known. It is probable, however, that as the matter is in the hands of the American ministers in China and Japan, the visit of Mr. Detring, commissioner of maritime customs at Tien-Tsin, Japan, can not be directly connected with the peace negotiations as has been supposed.

GOT OFF EASY.

Lieutenant Welsh, Who Slapped the Face of His Commanding Officer.

CHICAGO, Nov. 29.—President Cleveland has approved, and the war department issued an official order carrying into effect the finding of the army board in the case of First Lieutenant B. C. Welsh of the Fifteenth infantry, U. S. A., who is ordered to be placed on the retired list on three-quarters pay on account of physical disability. According to the report of the retiring board convened to consider the action of Lieutenant Welsh in slapping the face of Colonel Crofton, his commanding officer, during the field maneuvers at Evanston, Lieutenant Welsh was pronounced to be sane, but found to be suffering with a severe nervous affection, which, under any undue excitement, would, in the opinion of the board, absolutely prevent his commanding troops successfully.

"We must either have enough profit to cover the bald expenses of carrying on sugar refining or else go out of the business completely. We can not compete with the wages paid in Europe and our men can not begin to support themselves and their families at such figures. And yet we are asked to run our establishments with only the margin in refining that is to be found between the cost of raw and refined sugars, which is now a trifle less than half a cent per pound.

"No, the only thing for us to do is to shut down completely until there is a market for our goods and until we can see our way to pay expenses. And I can see nothing cheering or reassuring in the outlook at the present moment."

WASHINGTON MONUMENT.

One to Mark His Birthplace Is Soon to Be Erected.

WASHINGTON, Nov. 29.—Some years ago congress delegated to the secretary of state the duty of selecting the most appropriate means of marking Washington's birthplace at Wakefield, Va., 75 miles west of this city, on the Potomac river, and \$11,000 was appropriated for this purpose.

The monument has been delayed, owing to the absence of facilities for the transportation of materials, but the completion of a wharf by the government nearer the site supplies this want, and proposals will be opened on Dec. 15.

Secretary Gresham has decided that a shaft of American granite high enough to be plainly visible from passing vessels, a distance of five miles, would be the most suitable structure, but its exact design and inscriptions have not yet been determined on.

HURON, S. D., Nov. 29.—Judge Isaac Howe, late Populist candidate for governor, died at his home in Redfield yesterday after nearly a month of sickness, induced by overwork during the campaign.

RAILROAD OFFICIALS CHANGE.

NEW YORK, Nov. 29.—Manager and Captain John Ward has resigned both his positions in the New York ball club.

George Davis, third baseman, has been signed to manage and captain the team for the coming season. Ward intends practicing law with a Wall street firm of lawyers.

RAILROAD OFFICIALS CHANGE.

BALTIMORE, Nov. 29.—E. St. John, general manager of the Chicago, Rock Island and Pacific has been elected vice president of the Seaboard Air Line to succeed Major John C. Winder, resigned.

RAILROAD OFFICIALS CHANGE.

MEMPHIS, Nov. 29.—John Livingston was Wednesday indicted by the Federal grand jury for failing to pay the tax on playing cards which he offered for sale. This is the first indictment under the Wilson tariff act.

INTERNAL REVENUE.

Annual Report of Commissioner Joseph S. Miller.

WASHINGTON, Nov. 29.—The annual report of Joseph S. Miller, the commissioner of internal revenue, shows the total receipts from all sources for the fiscal year ending June 30, 1894, to have been \$147,168,449, a decrease for the year of \$13,830,540.

The following table shows the receipts from the several sources during the last fiscal year and the increase or decrease as compared with the year next preceding:

Spirits \$85,259,252, decrease \$9,461,000; tobacco \$38,417,398, decrease \$27,813; fermented liquors \$31,414,755, decrease \$1,134,195.

Oleomargarine \$1,728,479, increase \$32,836; banks and bankers \$2,26, no change; miscellaneous \$147,168,449, decrease \$13,830,539.

The quantities of spirits, etc., on which tax was paid during the last fiscal year and the increase or decrease as compared with the fiscal year 1893, are given as follows:

"Spirits distilled from apples, peaches and grapes 1,430,558 gallons, decrease 256,988; distilled from other materials 87,340,834 gallons, decrease 10,111,141;

fermented liquors 33,334,783 barrels, decrease 1,219,524.

Number of cigars, cheroots and cigarettes weighing over three pounds per 1,000 4,066,917,433, decrease 747,279,684; cigarettes weighing over three pounds per 1,000 3,183,572,760, increase 6,881,060. Cigars weighing over three pounds per 1,000 1,000 4,066,917,433, decrease 747,279,684; cigarettes weighing over three pounds per 1,000 3,183,572,760, increase 6,881,060. THURSDAY, NOVEMBER 29, 1894.

Holiday Advertising.

MERCHANTS will find a liberal use of THE BULLETIN'S advertising columns especially profitable during the next six weeks. The large circulation of the paper insures the bringing of business announcements before the eyes of most of the people of Mayville and Mason County, and many people of the adjoining counties are reached. Now is an especially good time to advertise.

REPUBLICANS are very much divided in their views of McKinleyism. Let it alone; it's dead.

"Let it alone," is the way Republican leaders are talking about the tariff question. They are surely not afraid it's bonded.

"LET US have Mexico's trade," exclaims that Republican journal, the Cincinnati Tribune. What's become of the home market?

THE Daily Herald, of Delaware, Ohio, remarked a few days ago: "Bob Ingersoll is still denouncing God and the Democrats. Both can stand it."

EX-SECRETARY FOSTER, who made such a miserable failure at managing his financial affairs over in Ohio, is out in an interview with a currency scheme for Uncle Sam. His ideas will hardly be received with much favor.

THE Buffalo Commercial, a G. O. P. journal, says: "Republican papers all over the country that are worth mentioning are protesting against the 'contests' that the Southern Republicans are threatening to bring into the next session."

We haven't heard of any protests hereabouts.

THE ELECTION LAW.

The Flemingsburg Gazette says: "The Democratic candidate for County Judge in Bourbon County will contest the election of the Republican candidate there."

Judge Mann is the defeated candidate and the majority against him on the face of the returns was eight. Now suppose Judge Mann can prove that ten times that number of illegal votes were cast in the county, how is he to be benefited by the investigation? Under the new election law, as it now stands, it is impossible to prove how a man has voted and there is no way to show whether the illegal votes were cast for Judge Mann or his opponent. In other words the law would simply prove an instrument to cover up and perpetuate the fraud.

THE BULLETIN is not in favor of returning to the old *viva voce* way of voting, but we believe that the new law is defective. It should be amended, so that in case of a contest, and only in such events, it could be proved how a man has voted.

This could be done by having the ballots numbered in consecutive order to correspond with the numbers on the stubs. Fix the limit as to time for filing notice of contests, have all ballots preserved in the hands of a Commissioner until that time expires and allow no ballot to be examined except where it has been first proved that the vote was illegal—no ballots but such as have been proved illegal to be examined.

With such an amendment, guarded by rigid penalties, the law could not be used to cover up a fraud.

Specimen Cases.

S. H. Clifford, New Cassel, Wis., was troubled with neuralgia and rheumatism, his stomach was disordered, his liver was affected to an alarming degree, appetite fell away, and he was terribly reduced in flesh and strength. Three bottles of Electric Bitters cured him entirely. Sold by J. James Wood.

THANKSGIVING PRESENTS.

Popular Fads and Fancies That Have Been Introduced For This National Holiday.

Presents and favors are becoming very popular for Thanksgiving remembrances, says the Cincinnati Enquirer. Brownies in all colors and attitudes are to be given as favors on Thanksgiving Day.

The favorite device for a table souvenir is a sizable little fellow with a burdensome pack of chocolates on his back. For larger gifts they are mounted by dozens on fancy boxes filled with bonbons.

Sweetmeat boxes are all taking appropriate shapes for the day, and the fortunate women who are so pleasantly remembered will find their gifts artistically designed after turkey gobblers and wishbones. Some will be mounted by a sterling silver wishbone, having a strip at the back which forms an easel, and small hooks projecting to serve as pen rests. It will be a charming addition to one's writing table.

It is quite the best form to inclose in these boxes any small silver ornament, and quite a number of dainty bound prayer books and hymnals are to be sent with violets. This is an especially appropriate thought, as the holiday is observed with religious rites more than merrymaking.

But devices for the men are just as much desired as for the women.

For their men friends women have ordered Brownies, of course, who, instead of carrying chocolates, are loaded with cigars. Footballs in favorite colors are designed in leather, tied with bows of velvet ribbon and filled with peppermints. Larger ones are fitted up to hold pipes or cigars on a smoking table. Cigar boxes of papier mache are fitted out with chocolates, and high hats of black are bound with colors and filled with bonbons.

ANOTHER DELUGE.

The Boy Believed In God's Promise, but Was a Bit Scared.

Boys—that is, small boys—have queer ideas in their little heads, often finding expression in unique speech. That they are truthful, or at least intend to be so, goes without saying. During the recent local flood a little boy about 6 years old stood at the window watching the rain as it rained. It seemed to him that he had never seen anything like it; had never in his brief experience noticed such strong indications of a regular old fashioned flood. Finally he confided his fears to his mother, asking if she didn't think that God was going to drown out the world again.

Here was the golden opportunity for impressing upon the mind of confiding childhood the teachings of the Bible. So she said calmly, "Don't you remember, Archibald, that you learned in Sunday school that God promised that he wouldn't drown the world again?" The little fellow watched the increasing rain a moment in silence while he pondered earnestly on the momentous question. "Yes," he said slowly, "yes, I s'pose I've got to believe what God says, but—but—and he shut his lips hard—but this is a devil of a shower." Stillwater (Minn.) Gazette.

If all the times was good times, An' all the skies was bright, There wouldn't be for you an' me Quite so much joy in sight—

If every day the world was May,

An' all the skies was bright,

If all the times was good times,

We'd all get tired—shore,

An' shift about, an' wish 'em out,

An' show 'em to the door—

If all the times was good times,

An' notin' went to seed;

With nothin' left to hope for,

An' notin' left to need—

We couldn't live, dear brethren,

With all the possums treed!

GABLE BROS.

EVERY member of the Methodist Episcopal Church is requested to be present this evening to take part in the vote as to the admission of women to the General Conference. Come praying.

D. P. Holt, Pastor.

The Court of Appeals has reversed the judgment of Pendleton Circuit Court in the case of James Racheford, who was sentenced to the penitentiary for life for the murder of Bud Finn. The reversal is ordered on account of errors in the instructions of the Judge to the jury which tried it in the court below, and sends the case back for a new trial. The murder of Finn created great excitement in Pendleton County at the time and Racheford narrowly escaped lynching at the hands of a mob. He was convicted entirely upon circumstantial evidence, a strong link of which was the finding of his necktie near the dead body of Finn, the men having been enemies before.

KOLB'S WAR.

Despite Peaceful Talk, Warlike Preparations Continue to Go On.

MONTGOMERY, Ala., Nov. 29.—Notwithstanding the authorities here disclaim any alarm over the contemplated actions of Kolb and his threat to be sworn in as governor on Saturday, there are warlike preparations going on in the city. Two loads of sabers have been sent around to police headquarters and guns are being brightened up in the military armories. Not only this, but the military of the state have been "invited" to be present at the state's expense to attend the inaugural ceremonies, and there are other indications that the authorities are expecting trouble with Kolb and his crowd.

The Kolbite members of the legislature are sullen and silent. They are noncommittal and affect to know nothing of Kolb's intentions. Kolb was in the city Tuesday and reiterated his purpose to be sworn in as governor and to denounce the incoming governor as a fraud and usurper. He said:

"If there is any trouble, I will not be responsible for it. I will adopt only peaceable means to secure my rights."

Honoring Governor Oates.

MONTGOMERY, Ala., Nov. 29.—Captain C. H. Davis, commander of the cruiser Montgomery, accompanied by a number of officers of the steamer, has arrived, and they are being royally entertained in Alabama's capital city. Nearly all the militia companies of the state are coming to honor the commander-in-chief, Governor-elect Oates, and participate in his inauguration, which takes place on Saturday.

BOMB IN A MINE.

It Exploded With Terrible Effect, but No One Was Killed.

BRAZIL, Ind., Nov. 29.—A partly successful attempt was made last night to blow up the new No. 1 shaft of the Brazil Block Coal company, just north of the city. A number of men were at work down the shaft and several in the rear of the engine room when there was a deafening report, and a sheet of flames shot from between the boiler walls. The occupants were thrown to the ground by the shock, but recovered in time to escape before the flames reached them.

The engine house and boiler rooms were consumed, but the fireproof paint protected the shaft house until the fire department arrived. The flames in the engine room cut off the eago in the mine, but the men down there escaped by the ladder, but had the flames gotten in the shaft house they would have been roasted.

After the fire, the basket, in which the end bomb had been placed, was found between the boiler walls. The company offers a reward for the capture of the perpetrators. The loss is \$3,500.

NICARAGUAN TROUBLES.

The Incident Causes Increased Activity at the Brooklyn Navyyard.

NEW YORK, Nov. 29.—The news of the trouble at Bluefields had the effect of increasing activity at the navyyard in Brooklyn. The officials there seem very reticent. They said they knew nothing about the government's intentions. The San Francisco is at the yards and the officers are instructed to have her ready for sea by Dec. 15. The time has been shortened by 10 days, and the great cruiser must be in fighting trim by Dec. 5. It was originally intended to send her to Europe to relieve the Chicago, but it was hinted at the yard that her destination has been changed.

The Cincinnati will ready in about 10 days and the Catin will be ready to go any place within a week.

PORT ARTHUR MASSACRE.

Later Reports Confirm the Story—What the Japs Want.

CHI-FOO, Nov. 29.—The United States cruiser Baltimore has returned here from Port Arthur. The later accounts of the fight at that place states that the Japanese lost only 40 killed and 100 wounded. The Chinese losses were 2,000. This account confirms the story of the massacre. The Japanese officers were unable to restrain their men, who were furious at the sight of their mutilated comrades. Only one defending battery was used. The guns of the other batteries were deserted. It is stated that the Japanese have refused to accept \$40,000,000 and that they want £50,000,000 indemnity and all the expense of the war.

Dangers of Politics.

TOLEDO, O., Nov. 29.—Treasurer Wesley Barney of Defiance county, who was found short in his accounts for the third time recently, Tuesday handed in his resignation to the commissioners, and his bondsmen placed \$6,500 in the treasury to cover the deficiency. When Barney accepted the office he owned a splendid farm and was quite well-to-do. He leaves the office a penniless and disgraced man.

MOSQUITO TALK.

North Atlantic Squadron May Be Sent to Central American Waters.

NEW YORK, Nov. 29.—At the office of the Nicaraguan consulate it was said that nothing had been received relative to the report that Great Britain had refused to recognize the sovereignty of Nicaragua over the Mosquito territory. Consul Dornitz is ill at his home, but his secretary said it was the opinion of Nicaraguans in this city that the rumor that the United States will send the North Atlantic squadron to Central American waters as a check to Great Britain was true.

Mining Strike Unchanged.

WARDNER, Idaho, Nov. 29.—The strike situation in the Bunker Hill and Sullivan mine remains unchanged. Manager Bradley has received a long telegram from the president of the company in San Francisco directing him to shut down the mine indefinitely. No effort will be made to supply the places of the strikers.

THREE TRAMPS MANGLED.

An Engineer Discovers the Remains of Human Bodies on His Locomotive.

ELMIRA, Cal., Nov. 29.—Three tramps were killed on the railroad track near here early Wednesday. Another man was probably fatally hurt. When freight train No. 8 arrived at the depot the engineer discovered remnants of human bodies on his locomotive, and an investigation soon proved that the train had run over four tramps who were supposed to have fallen asleep while warming themselves on a heap of smoldering embers lying on the track in the outskirts of town. Three of them were instantly killed, and their bodies were mangled in a horrible manner. The only survivor is a mulatto boy 17 years of age, who gives all information that can be obtained as to the identity of his companions. He is John Briscoe of Davenport, Ia. Johnnie or Vernie Irvin also of Davenport was his companion. The other victims, who were also negro boys, were unknown to Briscoe. The attending surgeon says that Briscoe will probably not recover. The whole body is badly bruised, both legs are broken and one arm was completely torn away.

BANDITS TRAPPED.

Two Posse Hemming in a Notorious Gang of Robbers.

WICHITA, Kan., Nov. 29.—Word was brought into Kingfisher, O. T., by a courier from Taloga, in the Cheyenne country, that the band of outlaws who attempted to rob the Wells-Fargo express at Canadian City last week and who killed Sheriff Tom McGee spent Sunday night near Taloga, and that a posse of deputy marshals was close on their track and was gradually driving them down the Canadian river into a trap set by another posse of officers sent out by Marshal Madsen from El Reno.

The outlaws identified as having taken part in the attack on the Canadian City express office are Bill Doolan, the famous outlaw chieftain; Lula Jack, Bill Anderson, a horse thief sent to the penitentiary for the murder of a sheriff, and Jim Stanley—all men on whose heads big rewards are placed.

A CAT'S FALL.

French Scientists Gravely Inquire Why Puss Always Lands on Her Feet.

The French Academy of Sciences spent almost an entire day last week profoundly discussing the question, Why do cats fall on their feet? M. Marey read a paper and submitted 60 photographs depicting puss in various attitudes while falling about five feet. The first showed the cat with feet in air making a series of desperate appeals for succor; then a somersault was turned with more or less grace; finally the feline reached the ground on its four paws, and then, with tail aloft, bolted into a safe retreat.

There was a great deal of learned discussion as to the cause of the phenomenon. M. Marey thought the problem had been triumphantly solved by puss in the first three feet of the descent. M. Milne Edwards, M. Berthelot and others maintained that the cat uses the hand or other object causing the fall as a leverage for turning round, but this did not agree with the early photographs, in which there is no sign of rotation. M. Marcel Deprez suggested that intestinal movement might account for the phenomenon. M. Marey promised to continue his experiments and to prevent the possibility of leverage by tying the cat and then letting pussy drop.—Paris Correspondent.

You Should Get It.

Should get what? Why, the Rev. Irl R. Hicks' splendid Almanac for 1895. He has kindly sent to this office a copy of the same, and we speak advisedly in saying that it is a rare publication—the very latest and best of all that has emanated from the pen and brain and heart of this well-known friend of the public. The history of this man's work—now an open book to all America—and a casual glance at his Almanac for 1895, convinces us that this vitally useful and instructive book ought to find its way into every shop, store, office and home in the land. The price of the book—only 25 cents—could not to our knowledge be invested for any one thing more profitably. It contains 84 pages, printed on fine book paper, with elegant covers in colors. It is for sale by all newsdealers. This fine Almanac is given as a premium to every yearly subscriber to the Rev. Irl R. Hicks' well-known and deservedly popular paper, Word and Works. This unique issue is a peerless educator of the masses, and is fast becoming a household guardian and necessity in the homes of America. Those who want to keep up with all the advanced thought of the age in science, religion and all social, commercial, intellectual and domestic subjects, should subscribe for Word and Works. Subscription only \$1.00 a year. You can send for both direct to Word and Works Publishing Co., St. Louis, Mo.

Kept Their Promise.

ARKON, O., November 27.—The great publishing corporation of this city, the Werner Company, to-day voluntarily raised the wages of its 1,500 employees 10 per cent., meeting its promise made a year ago, when their wages were cut.

WHAT SHALL I TAKE?

is the anxious question asked by those who are not feeling well—have no appetite—are out of sorts—have no energy—feel tired out. Perhaps you are feeling sick yourself!

Many medicines are recommended, doctors consulted—in many cases much money spent in this search for health—and yet it can all be avoided.

Wise people commence at once taking

Brown's Iron Bitters

and are soon made well and strong. Nearly every prescription given by physicians for such troubles contains IRON—which some people say they cannot take. Try Brown's Iron Bitters—it is warranted not to give headache, stain the teeth or cause constipation as all other Iron Medicines do.

Genuine has the crossed Red lines on the wrapper.

KNOWLEDGE

Brings comfort and improvement and tends to personal enjoyment when rightly used. The many who live better than others and enjoy life more, with less expenditure, by more promptly adapting the world's best products to the needs of physical being, will attest the value to health of the pure liquid laxative principles embraced in the remedy, Syrup of Figs.

Its excellence is due to its presenting in the form most acceptable and pleasant to the taste, the refreshing and truly beneficial properties of a perfect laxative, effectually cleansing the system, dispelling colds, headaches and fevers and permanently curing constipation. It has given satisfaction to millions and met with the approval of the medical profession, because it acts on the Kidneys, Liver and Bowels without weakening them and it is perfectly free from every objectionable substance.

Syrup of Figs is for sale by all druggists in 50c and \$1 bottles, but it is manufactured by the California Fig Syrup Co. only, whose name is printed on every package, also the name, Syrup of Figs, and being well informed, you will not accept any substitute if offered.
